GESTURAL INTERFACE

Touch Gesture Reference Cards: use to create printable cards of the core gestures and common actions of the multi-touch interface as well as unique actions associated with various mobile operating systems.

Access: <http://static.lukew.com/TouchGestureCards.pdf>

Touch Gesture Reference Guides: reference and icon system representing: core gestures, major user actions, object-related actions, navigating actions and drawing actions. These can be used in app design documentation.

Access: <http://static.lukew.com/TouchGestureGuide.pdf>

Cue: public domain icon system that represents touch screen gestures. These can be used in app design documentation.

Access: www.somerandomdude.com/work/cue

10 WIREFRAME AND PROTOTYPING TOOLS

1. [Balsamiq Mockups](#) (Mac and Windows; online and desktop)
2. [Cacoo](#) (online)
3. [Denim](#) (Mac and Windows, free)
4. [Gliffy](#) (online)
5. [Lumzy](#) (online, free)
6. [Mockflow](#) (Mac and Windows; online and desktop)
7. [Mockingbird](#) (online)
8. [OmniGraffle](#) (Mac)
9. [Simple Diagrams](#) (Mac and Windows; inexpensive)
10. [Visio](#) (Windows)

ICONS FOR MOBILE DEVICES

Recommended: use system icons first because they are familiar to users. Then look elsewhere.

- [Android Icon Guidelines](#)
- [Apple Icon Guidelines](#)
- [Iconic](#): free and open source icon set consisting of 171 marks in raster, vector and font formats.
- [Glyphish](#): 200 free mobile icons; inexpensive pro version with 400 icons
- [Mobile App Icons](#): 350 Icons for iOS, Android, & Windows Phone 7; free sample packs; color icons
- [Symbly](#): free large collection of icons and symbols for mobile apps and wireframes.

WEB TO NATIVE PLATFORMS

- [Phone Gap](#)
- [Titanium](#)

SOME mLEARNING AUTHORIZING TOOLS

- [Adobe Edge](#)
- [Hot Lava Mobile](#)
- [Lectora](#)
- [Live Code](#)
- [mLearning Studio](#)
- [Ready Go WCB](#)
- [Pastiche \(iPad\)](#)
- [Sum Total Toolbook](#)
- [Mobl21](#)
- [Upside 2 Go](#)

SOME AUTHORIZING TOOLS THAT PUBLISH TO HTML5

- [Captive 6](#)
- [Claro](#)
- [Lectora](#)
- [Storyline](#)
