Link 16 Prezi online presentations for tutors and students to display their work and collaborate as part of the Business Element of their Projects: <http://prezi.com/>

Link 17 LinkedIn to create a professional Identity for both Tutors and their Students as part of the Business Element of their Projects: <https://ie.linkedin.com/>

Link 18 Gmail by getting the students to create a new Gmail account just for the class eg. first name last followed by dmt4n1858 e.g. joebloggsdmt4n1858@gmail.com and eight digit password the students can use the same user name and password throughout their projects for on-line safety and privacy. It also means that if the Tutor and Examiner needs to view the students work, they only see their projects.

Finally using Microsoft Office PowerPoint to host all the students Portfolios to be used as a visual aid incorporating all the students work and on-line links and videos etc. with a printed hard copy in their folders for the external examiner to correct. By using a memory stick and placing the PowerPoint Presentations in one place the external examiner can view everything in case they don't have IT Skills.
